DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2, 7, 9, 13, 15, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Mislow et al (J. Amer. Chem. Soc. 1962).

The instant claims are product-by-process claims. Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. Furthermore, if the product in the product-by-process claim is the same as or obvious from a product in the prior art, the claim is unpatentable even though the prior art product was made by a different process. *In re Thorpe*, 777 F.2d 695, 698, 277 USPQ 964, 966 (Fed. Cir. 1985).

Accordingly, Mislow et al disclose the compound 4-bromo-benzene-1,2-carbaldehyde, or 4-bromo-phthalaldehyde (compound IIb, p 3591). This compound anticipates the instant claims.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: claims 1, 3-6, 8, 10-12, 14, and 16-18 are drawn to a process for preparing a 4-substituted phthalaldehyde (4-substituted-benzene-1,2-carbaldehyde). The closest

prior art of record fails to teach or fairly suggest a process wherein a *solid sodium bicarbonate* compound is employed in the reaction, as claimed herein.
